FEVR's 2018 at a glance

Mahatma Gandhi once said, "Be the change you wish to see in the world," and this is the motto that we too want to follow with our projects. We want to save lives. FEVR wants to see the situation of road crash victims changed throughout the world. From Victims of Traffic offences project through PIN Conference till World day, in 2018 we worked hard to be that change.

FEVR since 1991

We have started the 2018 with New year's reception organized by VIAS and participation in a very important project – Victims of Traffic Offences. We also joined “Let’s Talk Transport” European Citizen dialogue with Commissioner Violeta Bulc and Minister Bausch in Luxemburg.

Very special certificate of appreciation for Mr. Georges Bach MEP and member of the European Parliament transport committee.

Mr. Georges Bach had amended the EP Parliament report on road safety with article 12. Calls on the Commission and Member States officially to recognise the third Sunday in November as the World Day of Remembrance for Road Traffic Victims, as the United Nations and World Health Organisation have already done, in order to raise public awareness of this issue.

We are grateful to Mr. Bach and his colleagues in the Transport Committee to have included this important topic for road safety and for Road Traffic Victims in the report and hope that finally all member states will follow. (President J.Mersch)
